MesaLabs

Subject: DT Pro 1.2 Installation Qualification and Operational Protocol

This letter verifies that Mesa Laboratories, Inc. found the Installation Qualification and Operational Protocol for DT Pro 1.2 executed in August of 2012, an initial set of validation performed for DT Pro 1.2, to not meet GDP requirements. Subsequently that validation protocol was replaced with Installation Qualification and Operational Protocol for DT Pro 1.2 executed in February 2016. This newer protocol is free of all previous errors or inaccuracies originally found and the current revision now meets GDP standards.
