

DataTrace® Pro V1.3.1
Build 20171010
Compliance Certification

DataTrace Pro V1.3.1 Build 20171010 software (DTPro) was evaluated for conformance to function and performance specifications during the period of October 19, 2017 through October 27, 2017. The testing performed during the software evaluation was executed against the Validation and Compliance Plan for DataTrace Pro V1.3.1. The Compliance Plan was developed in accordance with GAMP5 and USFDA 21CFR Part 11 guidelines

The results of this testing demonstrate that the software conformed to applicable performance and functional specifications. DataTrace Pro V1.3.1 possesses all the features and functionalities required for compliance with and USAFDA 21CFR Part 11. Test results are documented within the applicable sections of the validation package.
